

Caldwell + Sideways (Pale Muskrats) = Understandings Eyes Only

Fruit Trees as a Food Security and Youth Empowerment Initiative

We have the technology and in-person expertise to showcase transformation, start to finish. We have Google Earth, Cloud File Networks, AI, Phones with us 24/7. The youth are disenchanted and heavily influenced by social media and screen time. What we have represents positive social interaction that inspires the youth to embrace the solutions under their feet.

Social Media Engagement

- Sharing of knowledge, on-going video instruction and content
- Teaching and showcasing change on Rez, using land stewardship and 7 gen principles

Food Security initiatives have never been more important.

All relevant species of Fruits Trees to be planted in small numbers in Moraviantown on Elder Steve's lands. If all things go well we will also be doing livestock; Cattle and Chickens, R&D while demonstrating how to move towards sustainability.

Background

Matthew Guignard

- Acadian (43yo) two young kids, living in Tecumseh On.
- Owner of Canadian Company, This is G Inc.
- Chairman of Agrarian Global

Steven Logan

- Delaware Nation, (Elder) three grown kids, living on Rez 47

Future: On-going Profit supported by sales of Vanilla, Food Ingredients Supply Chains
- Warehouse & Distribution of Indigenous All Natural Non GMO Food & Herbal Ingredients

Fruit Tree Plan Options

Online Fruit Tree Clearance Survey : <https://forms.gle/W4TWXkadCt27JZTs8>

Connect with intention to get a clear understanding of collective demand. Distribution from Harrow and either straight deliveries to various reservations or distribution on One Dollar Ranch.

Have a clear understanding and transparency of where the funding is coming from.

A funding resource is known as a “Participant”. The “Participant” shall be responsible for the purchase, delivery and costs of fruit trees.

Consultation of the Collective and Experts..... ADD

Proposal A: Swift Autonomy - Best Price and Legacy Scenario

Establish a New Entity, henceforth called “One Dollar Ranch” as a 51% First Nation business.

With 3 Members: Elder Steve Logan (with Daughter), Matthew Guignard and a Third Party(s)

Initial Allocation Funding for the Activation of One Dollar Ranch - Direct Funding | Grants provided and/or facilitated by the Third Party(s)

Research and Development Center @ One Dollar Ranch

* all required land transformation machinery is on site

Mission: The One Dollar Ranch shall reflect human ingenuity in resource management. Cost effective construction, working in-tune with the lands. Driven to showcase agricultural prosperity and the accessibility to facilitate change. Sustainable Agricultural Land Development.

One Dollar Ranch shall require access to funding / grant programs for the following:

- Land transformations, currently idle farm land with sandy loam soils
- Fruit tree cultivation small lots based on species requirements, trellis vs free standing
- Hard assets, such as modular design ocean containers off-grid technology systems
- Materials & Equipment, such as irrigation, fencing, trellis, gas
- General & Admin, such as and daily out of pocket, hosting onsite engagements, work shops

Matthew Guignard - 6 Month Consultant + Retainer * Renewable after 6months

- Shall facilitate all facets of the fruit tree procurement and planting initiatives
- Work directly with Steve Logan to establish the Research and Development Centre
- Document and showcase daily content, teachings and sharing of knowledge
- Coordinate technologies for the purposes of transparency across initiatives

Proposal B: New Branch of Existing Tree

A "Participant" Allocates Funds for the Trees in a New Division of an Existing Entity.

One Dollar Ranch: Research and Development Center.= Optional

Consultant / Management Fees: A Case by Case scenario. Cost is subject to the scope of work and requirements. Up to 1Acre of Land available for demonstrations and distribution on One Dollar Ranch.

Proposal C: Lone Wolf

A "Participants" gathers orders over 1,000 Trees on their own, without assistance of the collective / Agrarian Global.

Basic initial support to execute the Fruit Trees sales cycle in GoodWill.

Sourcing of all materials is the responsibility of the Lone Wolf

Dealing with on the Lone Wolf

Summary

Fruit Trees are coming out of the ground, it is certain as the rising sun.

This is a Legacy Future Gen of the Red Road Rising. Mixed with a Pale Acadian Muskrat
